## Task B: Last Flight

- Last flight counts
- Max flight is limited to 5 minutes
- All competitors of a group must launch their model gliders simultaneously, within 3 seconds of the acoustic signal. Launching a model glider before or more than 3 seconds after the start of the acoustic signal will result in a zero score for the flight
- Three Launches maximum within a 7 minute window
- There will be a start penalty in case a pilot needs more than 1 start

## Example Task B, NLH = 60 mtr

(For Launch bonus/penalty point explanation see "Start specification v1" )

| Subtotal <br> Flight |

| 125 |

First Flight
Start height 41 meter: 38 points launch bonus
Start Penalty: 0 points
Time: 1 minutes and 5 seconds $=65$ points
General penalty: no penalty
Subtotal first flight: $65+0+38=103$ points
Second flight
Start height 58 meter: 0 points launch penalty
Start Penalty: 10 points
Time: 3 minutes and 30 seconds $=210$ points
General penalty: Landing out of Pilots Area $=10$ points penalty
Subtotal second flight: 210-0-10-10=190 points
Third flight
Start height 60 meter: 0 points launch penalty
Start Penalty: 20 points
Time: 2 minutes and 25 seconds $=145$ points
General penalty: Landing out of Pilots Area $=10$ points penalty
Subtotal third flight: 145-20-10 = 115 points

End result Task B, Last Flight counts: 115 points. If the maximum points scored in this group is 310 points, after normalising the score for this pilot in this task is $115 / 310 * 100.0 \%=$ 37.1\%.
